## Emerald Ash Borer Now in Minnetonka

In May, officials in Minnetonka said trees along the southeastern border of the city are infested with emerald ash borer. EAB is a destructive pest that attacks all species of ash trees. Since ash trees have NO natural defense to EAB, trees will die in 1-4 years once infested. Eventually all ash trees will die unless successfully treated. Treatment costs approximately \$100 for a 20" diameter tree and must be done 1-3 years in perpetuity. EAB will spread to Greenwood.

**HOW TO IDENTIFY EAB:** EAB larva creates S-shaped galleries under the bark. An adult EAB is a slender elongated insect 1/3 to 1/2 inch long, iridescent-green to copper-green in color, and leaves a D-shaped exit hole in the bark. If you suspect you have found EAB, call the hotline at 651.201.6684.

**WHAT THE CITY IS DOING:** On city property, the city forester will mark ash trees for removal if they are weak specimens located close to a public street / trail / play area or have the potential to interfere with utility lines. Otherwise, ash trees on public property will become habitat for wildlife.

**WHAT YOU NEED TO DO:** Consult with a certified arborist to determine options for privately-owned ash trees.

**HOW YOU CAN HELP:** Hennepin County is under a quarantine that prohibits the movement of any hardwood firewood as well as ash branches. Do not transport firewood to campgrounds or parks.

## When in Doubt, Throw it Out

The practice of “aspirational recycling” has become the norm. For many, this

means placing an item in a recycling container that does not belong, or an item that is soiled, out of hope that the item is recyclable. The unintended consequence? Unprecedented levels of contamination in the nation’s recyclables. To help ensure a continued market for recycled materials, it is important to be sure only recyclable items are tossed into the recycling container. If you are in doubt, throw it into the trash container.

## Zebra Mussels Research in St. Alban’s Bay

The USGS and Minnesota Aquatic Invasive Species Research Center are working on a joint project in St. Alban’s Bay to evaluate the use of a low-dose copper\* treatment to control zebra mussels. Five buoys have been deployed and will stay until through October. The buoys are located in 12-15ft of water **IN NAVIGATION AREAS** and identify where cages with test organisms are submerged. A public meeting was held on 6/23 to discuss this project. Questions: Jim Luoma, Research Fisheries Biologist, 608.799.1723.

Setting up **AUTO-PAY** for utility bills is easy!  
Visit [greenwoodmn.com](http://greenwoodmn.com) to download the form.

## Watercraft Operation Reminders & Increased Water Patrol

In response to concerns raised by residents, water patrol presence will continue to be strong in St. Alban’s Bay during the summer of **2019**. The increased patrol has and will continue to deter unsafe and inconsiderate activity in the bay. Residents should call 911 to report both dangerous and non-emergency concerns. For example, a driver towing people close to docks or other watercraft is a dangerous activity that should be reported immediately. Loud music from an anchored boat is an example of a concern that could be reported. If possible, please include the boat description and license number when calling 911. Here are a few rule reminders:

- **WATERSKIING, TUBING, WAKE SURFING** hours are sunrise to 1/2 hour after sunset. Boats and jetskis towing people are required to have an observer 12yrs or older in addition to the driver.
- **JETSKI** hours are 9:30am to 1 hour before sunset. Operation of a jetski for more than 30 minutes in one area is prohibited.
- **A MINIMUM WAKE** is required for boats and jetskis within 150ft of shore, swimmers, docks, or another boat / jetski. Exception: normal speed is allowed perpendicular from the shore from which a boat or jetski is operating.

## Mayor’s Corner

Greenwood Quarterly 3RD QUARTER 2019  
[greenwoodmn.com](http://greenwoodmn.com)

*Summer is here – finally! I love all of the seasons in our beautiful “city on the lake,” but summer is definitely my favorite – especially after the snowy winter and rainy spring we had! I hope you have been enjoying the change to warm weather and sunny skies. While our attention has turned to the lazy days of summer, your city council ...*

*... authorized bidding for 2019 road and drainage improvement projects.  
... approved revisions to the tree ordinance to clarify the rules for new construction / renovations vs the rules for non-construction-related tree removal.  
... amended the draft of the 2040 Comprehensive Plan in response to input from the Met Council.  
... completed another round of property valuation appeals.  
... heard updates from State Senator Dave Osmeck and Hennepin County Commissioner Jan Callison.  
... is considering a new ordinance to regulate window wells.*

*Have a wonderful and safe summer! Also, please join me at our annual July 4th Parade (details on other side). I hope to see you there!*
